Dual FireWire™ Card Adapter

## Dual high-speed FireWire™ connectivity for Notebooks.

Is your existing Notebook or Desktop without the necessary next generation Ports to allow attachment to FireWire™ 1394a products such as the latest A/V equipment, Backup devices or other high-speed devices found on products today?

Introducing the new Dynamode **PCMX2FW** dual FireWire™ 1394a adapter, designed for the class-leading ExpressCard™/34 slot. The replacement for the current PCMCIA standard, ExpressCard™ technology couples the higher bandwidth performance of PCI Express including much higher transfer rates of around 3Gbps needed for today's high-speed storage and data transfer devices such as external A/V devices and external Storage products.

### Enjoy all the benefits of FireWire™ on the move.

Integral dual FireWire™ 1394a compliant ports with up to 400Mbps transfer rates with low CPU overhead. Fully 1394 OpenHCI V1.0 and v1.1 compliant and totally Plug n' Play with Hot Swap and integral 12VDC output if required.

Full Windows® and MAC® OS X compliance, the new **PCMX2FW** is your ideal partner for the next generation in high-speed data transfer.
