## Product Features

Keeps IT departments as happy as their users

Simple. Flexible. Compatible. The V330 is easy for IT to deploy, offering the simplicity, the flexibility of an Ultrabay drive and the hardware compatibility of multiple USB-C and USB 3.0 ports.

Reliable

The V330 makes IT maintenance easy, too. It's reliable - as shown by the series of rigorous tests it undergoes against shocks, drops, and other extremes - and secure, thanks to its physical camera shutter and integrated TPM 1.2 firmware.

Work and play better

With the widescreen anti-glare display, you'll enjoy rich visuals no matter what you're doing. Get your work done. Be creative. Watch a movie. The display opens 180 degrees, making it simple to share and collaborate or just get comfortable using your laptop the way you want.

Working anywhere just got easier

The ergonomic keyboard on the V330 was engineered for comfort and typing accuracy. The full-sized keyboard lets you blaze through tasks, while the large touchpad makes it even easier to be productive wherever you are - no mouse required. And with plenty of life in its QuickCharge battery, you'll get a lot of uninterrupted time without worrying about electrical outlets.

Put it through the ringer

The V330 was built to last. Lenovo tested it for reliability and durability against eight extreme conditions: shock test; vibration test; keyboard in-system test; hinge life test; fan reliability test; panel scuff test; operating temperature test; and pressure test. This laptop is ready for whatever conditions your business can put it through.

Don't forget to smile

Whether you're meeting with a prospective client or your colleagues around the world, the V330 has you covered for a superb video-conferencing experience. Stereo speakers deliver rich sound (which is great for music and movies, too). And the HD webcam ensures visuals so crisp and clear you'll feel like you're in the same room with meeting participants.

Laugh at would-be data thieves - including gravity

Lenovo knows how important your data is. That's why the V330 features the integrated firmware, Trusted Platform Module (TPM).
