# Compact 3-in-1 wireless inkjet printer

The compact but powerful DCP-J1100DW provides print, copy and scan functionality. Additionally, it offers, mobile connectivity and automatic document feeding, making it a great addition to offices with limited space.

## DCP-J1100DW All in Box

### Key features:

- In-box inks: BK: 6,000 pages. C/M/Y: 5,000 pages\*
- Wireless connectivity
- Mobile connectivity
- 20 sheet automatic document feeder (ADF)
- Automatic 2-sided printing
- 150 sheet paper input capacity
- Print speed up to 12 images per minute (ipm)
- 6.8cm LCD touchscreen.

### Up to 3 years' worth of ink in the box\*

As with other Brother inkjet printers, you will receive four in-box ink cartridges. However, with the DCP-J1100DW's high yield in-box inks (black, cyan, magenta and yellow) you won't need to buy new ink for up to three years of ownership\*. Not only that, our machines come with a 3 year warranty for complete peace of mind.

### Connect your business quickly and easily

Not only does the DCP-J1100DW look great, it offers a range of connectivity options to make printing as easy as possible. Wireless connection allows for simple set-up and the ability to share easily across multiple users/devices plus with mobile compatibility, mobile printing has never been easier; you don't even need a PC.

### Simple to use

With the 20-sheet ADF you can load your document and leave it to copy or scan while you complete other tasks around the office.

\*All in box provides DCP-J1100DW All in Box inkjet printer and 4 Brother Ink Cartridges, this does not include paper. Three years' worth of ink calculation for print yield is based on average monthly print volumes of approximately 200 pages at 60% black pages / 40% colour pages in accordance with ISO/IEC 24711 using the 4 ink cartridges provided in-box. The Brother All in Box is for small/home office application only, using this for intensive business purposes will increase usage of cartridges and subsequently decrease the standard specified printing duration of three years. If any supplies other than Brother manufactured ink cartridges (as provided in the all-in box solution) are used in the machine this could invalidate both manufacturer and extended warranty.
