Zip40

ERGOTRON®

Charging Cart / Charging & Management Cart

ONE cart fits all!
Chromebooks • Tablets • Laptops

The latest in device charging technology, the Ergotron Zip40 Charging Cart offers versatility and flexibility with the ultimate cart agility. Because it supports up to 40 devices and is fully safety certified, it's a smart choice for education, healthcare and enterprise environments. Its small footprint and rugged steel construction handles rigorous use and demanding conditions.

Featuring Ergotron's PowerShuttle® power management technology, the system efficiently charges up to **30% faster** than a standard round-robin system. With just one power cord plugged into a standard wall outlet, it safely prevents overloading of electrical circuits by automatically determining the maximum number of devices that can be charged at one time.

PS PowerShuttle

MORE CAPACITY

- Charges up to 40 tablet, Chromebook™, Ultrabook, MacBook® and laptop devices with a 15.6" (or smaller) screen size

MORE AGILITY

- Zip40 dual-wheel, 5" casters create a super smooth ride over a variety of flooring surfaces
- Cube-like, compact shape makes it easy to zip through tight spaces

The Zip40 Charging Cart uses dual-wheel, 5" casters that require 33% less push/pull force than carts with single-wheel casters

MORE EFFICIENCY

- PowerShuttle technology efficiently charges up to 30% faster with a single power cord plugged into a standard wall outlet

Faster Charge

SPEED

| Some charging products | PowerShuttle is up to **30% faster** |

- Safely prevents overloading of electrical circuits by automatically determining the maximum number of devices that can be charged at one time
- Includes a convenient ON/OFF power button
- Removeable, locking rear-access door to the adapter storage area allows for easy, one-time setup and clean cable management
- Well-designed ventilation and continuous operating fans keep devices cool
- Ships fully assembled

MORE SECURITY

- Rugged steel construction handles rigorous use and demanding conditions
- Durable steel doors include 3-point locking mechanism with separate key lock
- Add padlock for additional door security
- Optional security bracket kit locks cart to floor or wall

SUPER SAFE

- For user and equipment safety, the entire cart is tested and certified to UL 60950

Safe & Certified

MORE FLEXIBILITY

- Adjustable dividers let you customize capacity:

  Standard 1.1"-wide (28 mm) slots accommodate up to 40 devices, plus a partial shelf for extra storage

  Adjust slots to 1.9" (48 mm) to accommodate up to 30 laptops or thicker devices with large cases

  Mix and match devices; move and remove dividers

- Includes external auxiliary outlet to power peripherals
- Ethernet management capability also available – carts are upgradable
- Location included for installation of a Wireless Access Point (WAP not included)

Zip40

Charging Carts with
Ethernet Management Capability

- "Charge only" carts can easily be upgraded to management capability in the future as technology needs change

- Easy to update devices via Wake-On-LAN

- Pre-installed CAT6 Ethernet cables and mounting brackets for a customer-provided 1U standard rack mountable Ethernet switch (switch not included)

  Maximum dimensions of switch:
  17.5"W x 12.4"D x 1.8"H (44 x 26 x 4,4 cm)

  Maximum weight of the switch: 12 lbs (5,4 kg)

Durable steel doors include a 3-point locking mechanism with separate key lock; padlock can be added for even more door security

Separate rear-access door to the adapter storage area is easily removed for one-time set-up and clean cable management

Custom country-specific outlet strips include plenty of space to fit oversized wall plug or brick-style AC adapters

External Auxiliary Outlet(s) give you an 'always-on' outlet to plug in extra peripherals, such as a printer or document camera. No need to choose between using the auxiliary outlets and charging devices – use both at the same time!
