

## MasterAir Pro 3

The MasterAir Pro 3 is the new design in air cooling from Cooler Master. The new CDC 2.0 technology increases the surface area of the cooler base by 45%. The MasterAir Pro 3 also comes with the highest quality fans, MasterFan Pro 92 Air Pressure, making it the powerful choices when it comes to air cooling. And speaking of quietness we also incorporated Anti-Vibration pads into the fan bracket, completely eliminating the metal-on-plastic vibration noise. If you are looking for an air cooler based on performance and silence with compact size, the MasterAir Pro 3 is for you.
