

LapCabby

New thinking in ICT storage

Universal Range UniCabby 20H / 32H

We understand that the type, size and volume of devices connecting to your network is ever increasing. That's why our UniCabby is developed to suit various devices up to 14", including Chromebooks, netbooks, laptops and also tablets which all fit snugly with or without protective cases.

You'll receive all the innovative features of LapCabby's storage and charging trolleys you know and love, with the added flexibility of connecting a universal range of devices.

So don't limit your mobility. Deliver optimum flexibility and perfectly charged devices to your users, with assurance of robust protection, guaranteed from LapCabby and our lifetime warranty.

Universal Range Highlights

- ✔ Comprehensive safety testing – to the highest worldwide standards
- ✔ Stores and charges 20 / 32 Chromebooks, tablets or laptops up to 14"
- ✔ Stores tablets snugly with or without protective cases
- ✔ Specially designed shelf with integrated cable management
- ✔ Fully assembled for simple and rapid setup
- ✔ Efficient and silent air circulation
- ✔ Fitted with Power 7 Energy Management System
- ✔ Innovative cable management
- ✔ Small footprint
- ✔ Robust construction
- ✔ Competitively priced with Lifetime Warranty

Reasons to Love LapCabby

No matter the device – We have a product to sync, store and transport them. Laptops, Chromebooks, Tablets, BYOD, 1:1, 2:1, 3:1 - we have you covered!

What you see is what you get – Our feature rich products come fully assembled and quite literally ready to roll...

Built from scratch – All our components are designed and manufactured in-house. We don't do off the shelf!

Lifetime warranty – On every LapCabby purchase - we know our design and build quality is unsurpassed!

Rapid delivery times – Our global network of partners spans 44 countries and all major continents - meaning no matter where you are we can get your LapCabby to you. Fast.

Friendly service – Just because we operate across the globe doesn't mean we have compromised our customer centric ethos.

New thinking in ICT storage

UniCabby 20H

UniCabby 32H

1. Fixed shelves angle back slightly to allow devices to sit in place when moving the unit (1 device per shelf)

2. Portholes that feed cables from the back power compartment to the front of the unit, preventing cables from being removed from the front

3. Each shelf has a cleverly integrated cable management system which neatly stores and clips your device cable. Specially designed and moulded cable clips to keep cables secured at 5 points

4. Individual cable pockets for each device to store AC adaptor and excess cable

5. Ergonomic coloured ABS handles make LapCabbys easy to get from place to place

6. Extremely durable wheels - ensuring the bespoke fixing solutions can handle tough terrain for the entire lifetime of the unit. The rubber tyres absorb noise and bumps delivering quiet transit while protecting devices. Rather than a castor plate screwed on to the base of the unit we welded the fixing into the frame and on to a specially designed thick metal plate

7. Power 7 energy management system allows you to programme up to 21 different automatic charging schedules, 3 for each day of the week

8. Locking mechanisms are on top to prevent broken keys, with a dual point locking system at the top and bottom of the door offering added security

9. Concealed handle under the top opens the hidden power compartment. Once accessed, open power compartment allows easy access to organise cables, no tight spaces

10. Fully welded mesh base and side vents allow constant air circulation, so no fan is required and devices charge in silence

11. Inset, coloured door handles prevent protruding parts

12. IEC power cables plug into the mains and are designed to snap out if pulled away from the wall, preventing damage to the unit or any nasty trips

13. Fully welded steel frame, robust rubber wheels, and a welded binding plate offer ultimate strength and ensure wheels won't come loose or buckle

14. Large L-shaped doors and sliding shelves for easy access to devices and storage compartments

15. Rounded corner extrusions and rubber corner bumpers protect the unit, walls and devices when you're on the move

16. When unit is switched on, power strips boot up sequentially (1 second apart) to avoid a surge on the power supply.

LapCabby

New thinking in ICT storage

	Code	Number of Devices Can Hold	Trolley Dimensions	Device Compartment Size	AC Pocket Size
UniCabby 20H	UNI20H	20 Chromebooks / tablets, or laptops	W626 x D510 x H1180mm 25" X 20" X 46"	W350 x D230 x H30mm 14" X 9" X 1"	W161 x D90 x H78mm 6" X 4" X 3"
UniCabby 32H	UNI32H	32 Chromebooks / tablets, or laptops	W947 x D510 x H1008mm 37" X 20" X 40"		

Materials	Heavy duty steel frame with strong MFC cladding
Finishes / colours	LapCabby loves a splash of colour! Classrooms are colourful - why put up with a black or grey square box? Blue available for the TabCabby Compact range
Safety	This range is currently undergoing testing and will be available summer 2016
Additional safety features	A heat sensor inside the Power7 automatically switches the unit off when the ambient temperature within a LapCabby reaches an unsafe level. An over heating device can be a fire risk so we have installed an additional heat sensor in every trolley. With the side vents and the weld mesh base our trolleys are kept cool around the clock
FREE shipping	All our prices INCLUDE shipping!
Fully assembled	Our products are delivered fully assembled. Or as we say ready to roll
Additional extras	No hidden extras, what you see is exactly what you get, everything you need is included! Power7 timer and energy management system, cable management, robust rubber wheels. We make sure we include everything you need to have a safe, efficient and bright trolley in the classroom, including rubber protective mats for the devices to sit on and cable management
Future proof	Yes, we have trolleys that accommodate laptops, Chromebooks and tablets at the same time and charge all devices simultaneously. It's handy to have a trolley that charges all sorts of devices all at the same time. The teachers laptop can be charged in the same trolley along side the students Chromebooks or tablets. Whether classroom devices get bigger or smaller, they'll fit in a LapCabby trolley for many years to come. Technology Cambrixion future proofed
Cable management & ease of wiring	Each shelf has a cleverly integrated cable management system which neatly stores and clips your device cable. Separate compartment safely stores cables, cable management and electrics away. Once unlocked by hidden lever, full access to the cables make it quick and easy to wire up. Having complete access to the cable management reduces the time it takes to set the trolley up and means you don't have to squeeze your hands into tight spaces. If a charger needs to be removed or you need to access the electrical compartment you don't want to have to unload the entire trolley. For safety reasons, a locked compartment to store the electrical components is important, plus cables can go missing if they are accessible from the front of the trolley.
Usable top surface	Yes
Simultaneous charging	All our trolleys provide simultaneously charging! Additionally the Power 7 timer and energy management system has 3 programmable charging schedules per day, 7 days a week which can be programmed to work around the classroom schedule and manual charge is also available in between. (LapCabbys efficiently charges everything all at the same time. Charging electrical strips individually means the overall charging time takes 2, 3 or 4 times as long! Who has time for that?)
Lifetime warranty	Lifetime warranty on all products and components, 2 years warranty on electrics. Product support for life! LapCabby offers the best warranty on the market (with no small print to consider. We make it easy to understand and we support our end users for the life of the product!)

About LapCabby

Clever technology solutions that tick all the boxes.

For twenty years we've been developing innovative products that our customers love. We make portable storage trolleys and charging solutions for laptops, tablets, e-readers, Chromebooks and netbooks. They're the smart way to keep your tech safe, charged, and in one secure place.

Developed over two decades with the help of customers and technology users, we've included some really ingenious features to ensure our products do everything you need them to – and a little more besides. Our trolleys are used everywhere, from schools, libraries and museums to restaurants and even laboratories, so wherever you are our products are sure to make a difference.
