

USB-CDR

USB Powered external CD reader

Portable CD-ROM readability.

Offering a cost effective and fully portable solution for your existing CD-ROM readability in a USB powered and slim line enclosure.

The Insixt **USB-CDR** is a truly portable CD-ROM player with the added benefit of being totally USB2.0 powered. Featuring a new, slim line black enclosure with full size CD ejection tray, the USB-CDR comes with direct USB port attachment (USB cables supplied) together with an optional DC input port if further power is required.

Fast performance is assured with a maximum read time of approx. 24x using the high-speed USB2.0 interface of up to 480Mbps. Fully compatible with CD-ROMs including standard CD-ROM, Digital Audio CD-ROM and CD-Rs with the capability to read up to 700Mbytes of data storage.

Full Windows® Vista® and MAC® OS X compliant with driverless operation and low power drain for mobile users.
