Professional Workflow HR1
(USB 3.0 Hub)

⚡ THUNDERBOLT™

Professional Workflow HR2
(Thunderbolt™ 2 and
USB 3.0 Hub)

Assorted card readers
and storage drives

Product Line Highlights:

- Transfers and backs up images and video from multiple memory cards at once

- Hubs leverage Thunderbolt™ 2 or USB 3.0 technology for high-speed transfer and backup of RAW images, high-res photos, and HD, 3D, and 4K video

- Readers support today's latest card formats: SDHC™/SDXC™ UHS-I and UHS-II, CompactFlash® UDMA 7, XQD™, CFast™ 2.0 (Thunderbolt or USB 3.0), and microSDHC™/microSDXC™ UHS-I

- USB 3.0 storage drives provide 256GB or 512GB of storage

- Innovative, modular design

- Use the readers and storage drives with a hub or on the go

- Two-year limited warranty on all products
Take control of your workflow

The Lexar® Professional Workflow line of products includes your choice of two four-bay reader and storage drive hubs, a selection of card readers, and two storage drives. Its innovative, modular design lets you create a custom setup, while its high-speed performance lets you offload and back up your work, faster. Pick and choose the right combination for your needs, and take control of your workflow.

High-speed, simultaneous transfer and backup of files

Transfer and back up images and video from multiple memory cards at once. Mix and match any of the Professional Workflow readers and storage drives with your choice of hub to create your ideal setup. Whether you choose four card readers or a combination of card readers and storage drives, the solution lets you transfer and back up your images in a single click.

Customize your workflow with an innovative, modular design. Whether you're a pro photographer or videographer, an adventure seeker using a sports camcorder or aerial camera, or someone who needs a streamlined backup system, it's easy to create your custom workflow setup. The Professional Workflow line includes your choice of a USB 3.0 or Thunderbolt 2/USB 3.0 four-bay reader and storage drive hub, six readers, and two storage drives. Readers support SDHC™/SDXC™ UHS-I and UHS-II, CompactFlash® UDMA 7, XQD™, CFast™ 2.0 (USB 3.0 or Thunderbolt), and microSDHC™/microSDXC™ UHS-I formats, while the storage drives are offered in 256GB and 512GB capacities. Pick and choose the right combination for your needs. And for added versatility, you can remove the readers and storage drives from the hub for individual use on the go.

Offload your work, faster. The readers, storage drives, and hubs leverage USB 3.0 technology for high-speed performance, while the Professional Workflow HR2 hub is also designed to deliver next-generation Thunderbolt 2 speeds. Thunderbolt 2 technology gives photographers and videographers the power to quickly transfer 4K video and other large media files, at up to twice the speed of Thunderbolt and up to 4x the speed of USB 3.0 devices.[1] The Professional Workflow HR2 hub is also backwards compatible with Thunderbolt and USB 2.0 (at slower speeds), while using the same cables and connectors.

Transfer and back up files
at Thunderbolt™ 2
or USB 3.0 speeds[2]

Quickly back up large files. Add a flash-based storage drive to a Professional Workflow hub and now you can quickly and easily store your transferred files. Leveraging USB 3.0 speeds, the drives provide read transfer speeds up to 450MB/s and write speeds up to 245MB/s.[3] They're offered in high-capacity 256GB and 512GB options, so you have the space you need to back up large media files.[4] The drives also include an LED capacity meter, so you can see available storage space at a glance.

Products (sold separately):

Hubs:

Lexar® Professional Workflow HR1 (four-bay USB 3.0 reader and storage drive hub)

Lexar® Professional Workflow HR2 (four-bay Thunderbolt™ 2/USB 3.0 reader and storage drive hub)

Readers (work with either hub):

Lexar® Professional Workflow SR2 (SDHC™/SDXC™ UHS-II USB 3.0 reader)

Lexar® Professional Workflow CFR1 (CompactFlash® USB 3.0 reader)

Lexar® Professional Workflow XR1 (XQD™ USB 3.0 reader)

Lexar® Professional Workflow CR1 (CFast™ 2.0 USB 3.0 reader)

Lexar® Professional Workflow CR2 (CFast™ 2.0 Thunderbolt™/USB 3.0 reader)

Lexar® Professional Workflow UR1 (three-slot microSDHC™/microSDXC™ UHS-I USB 3.0 reader)

Storage drives (work with either hub):

Lexar® Professional Workflow DD256 (256GB USB 3.0 storage drive)

Lexar® Professional Workflow DD512 (512GB USB 3.0 storage drive)

Simple setup and use. Simply plug the readers or storage drives of choice into the hub and start transferring and archiving files. It's that easy. Also, the Professional Workflow HR2 hub provides two Thunderbolt 2 ports and one USB 3.0 port, making it easy to daisy-chain with your existing setup. Having two Thunderbolt 2 ports also allows you to place the hub anywhere in your lineup of other Thunderbolt devices to create a unique, customizable setup. The hubs help you eliminate cable clutter and take control of your workflow.

Future-proof your workflow setup. The modular design of the Professional Workflow line of products makes it adaptable to changing technology. As Lexar introduces new card formats and additional storage drives for this system, you'll be able to swap in new products to meet your growing and changing needs.

Warranty. All Lexar Professional Workflow line products are backed by a two-year limited warranty.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

When memory matters, the choice is Lexar. With a long history in the industry, we know memory. We move quickly with technology to design the solutions you need, and work with device manufacturers to make sure our products are compatible. Then we stand behind them with outstanding warranties and helpful customer service. We're dedicated to performance, reliability, and expert support, so when it comes to storing the memories that matter, trust Lexar.

For more than 15 years, Lexar has been trusted as a leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, readers, and storage drives. With so many options, it's easy to find the right Lexar solution to fit your needs.
