

## 6 ft Mini DisplayPort to VGA Cable - M/M

StarTech ID: MDP2VGAMM6

The MDP2VGAMM6 6-foot Mini DisplayPort to VGA Cable is a cost-effective Mini DisplayPort to VGA link that lets you connect a VGA monitor to a PC or Mac® with a Mini DisplayPort output - saving the expense of upgrading the monitor for compatibility.

Backed by our 1-year warranty, this all-in-one, easy to use Mini DisplayPort/VGA cable requires no additional converters or adapters, and no driver or software installation.

### Applications and Solutions

- Not ready to purchase a new monitor / display for your new system? Keep your existing VGA display with our Mini DisplayPort to VGA video converter cables.
- Use a VGA monitor on a DisplayPort-equipped MacBook® or iMac® computer, using the Mini DisplayPort video output.

## Features

- All-in-one cable design.
- No software or additional drivers required.
- Supports resolutions up to 1920x1200 and HDTV resolutions up to 1080p.
