Perfectly paired with Apple's Time Machine backup software and password protection, the My Passport for Mac drive helps keep your files safe.

# MY PASSPORT™ FOR MAC

## PORTABLE STORAGE

### Product Features

#### Designed for Mac

My Passport for Mac portable storage works straight out of the box with Mac devices which makes it easy to get going quickly – drag and drop files to and from, or setup a backup routine with Apple’s Time Machine software to help protect your photos, videos, music and documents.

#### Password Protection with Hardware Encryption

The My Passport for Mac drive’s built-in 256-bit AES hardware encryption with WD Security™ software helps keep your content private and safe. Just activate password protection and set your own personalized password. You can also add a “return-if-found” message as the password prompt to help your My Passport for Mac drive find its way back to you if it ever accidentally gets left behind.

#### USB-C Ready, USB-A Compatible

My Passport for Mac includes USB-C and USB-A cables for universal compatibility with Mac computers of yesterday and today.

#### Do More with WD Discovery

Included WD Discovery™ software lets you connect to popular social media and cloud storage services like Facebook, Instagram, Dropbox and Google Drive™ so you can import your photos, videos and docs to the My Passport for Mac drive to help preserve your online life. WD Discovery can also manage your drive through WD Drive Utilities.

#### Easy to Use

My Passport for Mac portable storage is ready to use out of the box so you can start transferring files, saving your memories and backing up right away. It comes with WD Discovery software for WD Security to help protect your data and is compatible with Apple Time Machine.
