

Locka Range BYOD / 1:1

Locka by LapCabby is our new range of durable, static ICT storage solutions. Locka enables you to charge and secure a myriad of devices and accommodate a growing mobile user base.

With Locka you can create a central 'hub' for devices including Chromebooks, laptops and tablets - to secure your 1:1 deployments and offer secure charging and storage for BYOD users.

The Locka can be set up in a number of ways, wall-mounted, sat on a desktop or stacked together on the floor, to provide as much storage as you need, in whatever space you have! The range also offers control on the level of access required with digital key pad access, door-per-device for BYOD, or one locked door securing multiple devices, perfectly suiting 1:1. Or simply mix and match!

Locka Range Highlights

Locka Range

BYOD / 1:1

LapCabby

New thinking in ICT storage

1. Stackable storage with charging capabilities. Stack and connect up to two LapCabby Lockas connecting them together with LapCabby designed connector fittings

2. Individual horizontal charging compartments for up to 8 devices to accommodate tablets with and without cases including Otterbox, Griffin Survivor and Folio cases as well as Laptops and Chromebooks up to 14 inches

3. BYOD version allows for you to bring your own device to and from the Locka using the pre-installed code lock.

Place your device inside the locker, enter your personal 6 digit code and leave your device to charge

4. 1:1 version cables cannot be removed from the front of the unit, as they are stored away in the secure AC compartment, preventing cables from going missing

5. Units can be secured to the wall with the LapCabby Locka designed wall hanging kit

6. The Locka can be closed and locked during charging, as devices will be kept cool through cleverly positioned natural ventilation vents.

	Code	Number of Devices Can Hold	Unit Dimensions	Device Compartment Size	AC Pocket Size
Locka BYOD (bring your own device)	LOC8D	8 Chromebooks / tablets, or laptops	W471 x D595 x H595mm 19" x 23" x 23"	W271 x D379 x H55.5mm 11" x 15" x 2"	W110 x D379 x H55.5mm 4" x 15" x 2"
Locka 1:1	LOC1D				

Materials	MFC cladding
Finishes / colours	LapCabby loves a splash of colour! Classrooms are colourful - why put up with a black or grey square box? Lockas are available with grey finish and blue doors
Safety	This range is currently undergoing testing and will be available summer 2016
Additional safety features	Air vents have been strategically positioned to allow for effective cooling via natural ventilation vents
FREE shipping	All our prices INCLUDE shipping!
Fully assembled	Our products are delivered fully assembled. Or as we say ready to roll
Cable management & ease of wiring	Separate compartment safely stores cables, cable management and electrics away. Once unlocked, full access to the cables make it quick and easy to wire up. Having complete access to the cable management reduces the time it takes to set the locker up. If a charger needs to be removed or you need to access the electrical compartment you don't want to have to unload the entire locker. For safety reasons, a locked compartment to store the electrical components is important, plus cables can go missing if they are accessible from the front of the locker
Usable top surface	Yes
Simultaneous charging	All our lockers provide simultaneously charging! (LapCabbys efficiently charges everything all at the same time. Charging electrical strips individually means the overall charging time takes 2, 3 or 4 times as long)
Lifetime warranty	Lifetime warranty on all products and components, 2 years warranty on electrics. Product support for life! LapCabby offers the best warranty on the market (with no small print to consider. We make it easy to understand and we support our end users for the life of the product!)

About LapCabby

Clever technology solutions that tick all the boxes.

For twenty years we've been developing innovative products that our customers love. We make portable storage trolleys and charging solutions for laptops, tablets, e-readers, Chromebooks and netbooks. They're the smart way to keep your tech safe, charged, and in one secure place.

Developed over two decades with the help of customers and technology users, we've included some really ingenious features to ensure our products do everything you need them to – and a little more besides. Our trolleys are used everywhere, from schools, libraries and museums to restaurants and even laboratories, so wherever you are our products are sure to make a difference.
