

LabelWorks LW-1000P

The hard-working label maker that offers the widest range of connectivity choices and can be used with iOS and Android devices.

This label maker allows you to create and print labels easily, as you can print from your computer or directly from an iOS or Android device. Featuring fast 35mm/sec print speeds, multiple connectivity options and a top-loading tape feed, this professional label maker will be great addition to your workplace.

Widest range of connectivity

You can print from your computer, or download the free Epson iLabel app¹ to create and print labels from your iOS or Android device. You can also connect to the LW-1000P without the need for a router, thanks to the wireless device-to-device connectivity – perfect for use with your smart device or if a LAN is unavailable. It can also be used over the LAN as it has Ethernet and Wi-Fi connectivity too.

Smart device label maker

With its flexible connectivity options, you can either print from your computer, or download the free Epson iLabel app to create and print custom labels directly from your iOS or Android device.

Smart device label maker

Fast, productive printing

Boasting print speeds of up to 35mm/sec and a 360dpi print quality, this is Epson's fastest LabelWorks model and ideal for printing multiple labels. The integrated trim cutter can round label edges, which helps reduce peeling once labels are attached, while the top-loading tape feed helps make operating the LW-1000P so easy. And it can print on labels up to 36mm in width.

Fast, productive printing

Save money

To get you started, the LW-1000P comes with one nine-metre tape to create black text on a white background. The large variety of tapes available to buy (including Epson's new glow-in-the-dark, reflective and iron on tapes) ensure you are able to select the ideal tape for your particular task.
