Ultra Compact, Water Resistant, Retractable Connector

The Corsair Flash Voyager family of USB drives is rugged, stylish, compact, and reliable, making them ideal for transporting MP3s, digital images, presentations and more. The Flash Voyager Mini is the newest member of the Flash Voyager family.

The ultra portable Flash Voyager Mini packs a lot of features in its small package. The Flash Voyager Mini utilizes a cap-less retractable connector plug which easily opens with the flick of the thumb. The ergonomic rubberized housing makes it easy to connect and disconnect from any computer. Utilizing an all-rubber housing, the Voyager Mini is water-resistant and shock proof, allowing users to carry their value data and applications without compromise.

The Corsair Flash Voyager Mini is the perfect flash drive for users with busy and active lifestyles. Utilizing the latest Chip-on-Board technology the Flash Voyager Mini is the perfect synergy of size, looks and function.

Features:

- Ultra-compact, rubberized USB flash drive
- Cap-less retractable connector plug
- Plug & Play functionality in Windows® Vista, XP, 2000, ME, Linux 2.4 and later, Mac OS 9, X and later
- Limited 10-year warranty

Legendary Corsair Warranty and Customer Service

Corsair stands behind the Flash Voyager product family with a 10 year (120 months) warranty. Because questions occur at all hours, on-line customer support is accessible 24/7 at www.askcorsair.com

You'll find FAQs and helpful hints from experts and other users, as well as easy directions for organizing returns if needed

HOW MUCH DATA CAN I STORE?

FORMAT	4GB
Still Image: JPEG (6 MegaPixels)	1,240 Images
Video: MPEG-2 (5Mbps - 30fps)	1hr 40min
Video: MPEG-4 (384 Kbps - 15fps)	19hr
Music: MP3 (128kbps)	1,000 songs

OS Supported

Microsoft	Windows Vista, Windows XP, Windows 2000, Windows Me
Mac	9.X and above
Linux	Kernel 2.4.2 or higher

Other Functions Supported

ECC	13-bit Error Correcting Codes, BCH
Wear Leveling	Static wear leveling
USB Bootable	Yes

Power Requirement

Voltage	5V ± 10%
	USB bus powered, no external power required

Power Consumption

Read	Less than 90mA
Write	Less than 125mA
Standby	Less than 1mA

Environment

Operating Temperature	0°C to 70°C
Storage Temperature	-25°C to 75°C
Humidity	5% to 95%

Certification

Emissions	FCC, CE, VCCI
-----------	---------------

NOTE: The industry standard for measuring capacity on flash memory storage products (such as SD cards, USB flash drives, etc) is 1 megabyte (MB) = 1 million (1,000,000) bytes and 1 gigabyte (GB) = 1 billion (1,000,000,000) bytes. Some of the listed capacity is consumed by formatting the device and other internal device functions, and is not available for data storage.
Most operating systems report device storage capacity in binary format in which 1 MB = 1,048,576 bytes and 1 GB = 1,073,741,824 bytes; therefore, an operating system will typically report the capacity of a 4GB flash device as 3.73GB (= 4,000,000,000/1,073,741,824).
