

Product Highlights:

- High-speed performance—leverages UHS-II technology (U3) for a read transfer speed up to 1000x (150MB/s)¹
- Includes microSD UHS-II reader for high-speed file transfer from card to computer, dramatically accelerating workflow²
- Premium memory solution for sports camcorders, tablets, and smartphones
- Designed for high-speed capture of high-quality images and extended lengths of 1080p full-HD, 3D, and 4K video
- Backwards compatible with UHS-I devices, performing up to the maximum thresholds of UHS-I speed capabilities (SDR104)
- Includes lifetime copy of downloadable Image Rescue[®] software
- Backed by expert support
- Limited lifetime warranty on card and one-year limited warranty on reader

Capacities:

microSDHC
32GB

microSDXC
64GB
128GB

Professional-level performance for mobile device users

Lexar[®] Professional 1000x microSDHC™/microSDXC™ UHS-II cards let you quickly capture, play back, and transfer multimedia files, including 1080p full-HD, 3D, and 4K video, with a read transfer speed up to 1000x (150MB/s).¹ The cards leverage UHS-II technology (UHS Speed Class 3 (U3)) for high-speed performance, and include a microSD™ UHS-II USB 3.0 reader for high-speed file transfer.²

Premium memory solution for sports camcorders, tablets, and smartphones

High-speed performance you can trust. Whether you're a professional photographer, videographer, or a mobile device power user, these high-speed cards provide performance you can trust. They leverage UHS-II technology (UHS Speed Class 3 (U3)) and provide a read transfer speed up to 1000x (150MB/s) when used with the included SD UHS-II reader.¹ This gives you the speed and capacity you need to capture, transfer, and share more adventures on the go.

Quickly transfer files with included SD UHS-II reader, dramatically accelerating workflow. Using the reader that comes with the Lexar Professional 1000x microSDHC/microSDXC UHS-II cards, you'll experience high-speed file transfer at UHS-II speeds, right out of the box.² This dramatically accelerates workflow from start to finish, getting you back to capturing the action faster.

Capture adventures in HD. Calling all adventure seekers and adrenaline junkies! You can make the most of your adventures in the great outdoors by leveraging the power and performance of Lexar Professional 1000x microSDHC/microSDXC UHS-II cards. So whether you're shooting the action with your sports camcorder or an aerial camera, you can quickly capture, play back, and transfer extended lengths of the highest quality 1080p full-HD, 3D, and 4K video—making it easy to preserve more than 15 hours of your greatest moments and then relive the action.³

Do more with your multimedia. Also great for use with your tablet or smartphone, the cards make it easy to quickly download or save all your favorite media files, including the highest-quality movies, photos, and songs.

Backwards compatible at the highest UHS-I speeds. For versatility, the cards are also backwards compatible with UHS-I devices, performing up to the maximum thresholds of UHS-I speed capabilities (SDR104). The cards also work with older, non-UHS-I devices, performing at Class 10 speeds.

Recover files with Image Rescue[®] software. Professional 1000x microSDHC/microSDXC UHS-II cards include a lifetime copy of Image Rescue[®] software. Image Rescue recovers most photo and select video files, even if they've been erased or the card has been corrupted.⁴ The software is available for free download with purchase of the card.

Warranty and support. All Lexar Professional line memory cards come with a limited lifetime warranty and are backed by expert technical support.

Outstanding compatibility. The Lexar team works with major camera manufacturers to ensure cards are compatible with their digital cameras—from the simplest to the most complex.

Rigorously tested. All Lexar product designs undergo extensive testing in the Lexar Quality Labs, facilities with more than 1,100 digital devices, to ensure performance, quality, compatibility, and reliability.

When memory matters, the choice is Lexar. With a long history in the industry, we know memory. We move quickly with technology to design the solutions you need, and work with device manufacturers to make sure our products are compatible. Then we stand behind them with outstanding warranties and helpful customer service. We're dedicated to performance, reliability, and expert support, so when it comes to storing the memories that matter, trust Lexar.

For more than 15 years, Lexar has been trusted as a leading global brand of memory solutions. Our award-winning lineup includes memory cards, USB flash drives, readers, and storage drives. With so many options, it's easy to find the right Lexar solution to fit your needs.

Lexar. When Memory Matters.™

¹Up to 150MB/s read transfer, write speeds lower. Speeds based on internal testing. Actual performance may vary. x=150KB/s.

²Highest transfer speeds achieved only when paired with a microSD UHS-II USB 3.0 reader.

³Based on 128GB capacity. HD 1080p@24fps (15 Mbps). Actual number of hours will vary depending on camera/device model, format resolution and compression, usable capacity, and bundled software.

⁴Image or other data recovery is not 100% guaranteed.
