SPDIFCOAXTOS Two-Way Digital Audio Converter / Repeater

FCC Compliance Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Use of Trademarks, Registered Trademarks, and other Protected Names and Symbols

This manual may make reference to trademarks, registered trademarks, and other protected names and/or symbols of third-party companies not related in any way to StarTech.com. Where they occur these references are for illustrative purposes only and do not represent an endorsement of a product or service by StarTech.com, or an endorsement of the product(s) to which this manual applies by the third-party company in question. Regardless of any direct acknowledgement elsewhere in the body of this document, StarTech.com hereby acknowledges that all trademarks, registered trademarks, service marks, and other protected names and/or symbols contained in this manual and related documents are the property of their respective holders.

Introduction

Thank you for purchasing a StarTech.com Two-Way Digital Audio Converter / Repeater. This innovative device allows you to convert and/or extend your Toslink or Digital Coaxial audio input, without sacrificing any signal quality, and offers simplified switching between the Toslink or Digital Coax signal inputs using a built-on mini-switch - ensuring a convenient and top quality audio experience.

Features

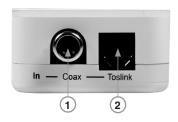

- Supports two way audio conversion: Toslink to digital coaxial or vice versa
- Supports amplification of S/PDIF audio signals and extends their transferring distance, through coaxial and/or Toslink cables.
- Input 2 to 5.1 channel audio. Output channels will always be the same as audio input channels
- Compact design saves space
- · Easy installation

Package Contents

- 1 x User manual
- 1 x SPDIFCOAXTOS Audio Converter
- 1 x Power Adapter

Operating Controls and Functions

Input Panel

1. Coaxial Input

Connect to the output port of your S/PDIF audio source (e.g. DVD player, amplifier) using Coaxial cable.

2. Toslink Input

Connect to the output port of your S/PDIF audio source, (e.g. DVD player, amplifier) using Toslink cable

Output Panel

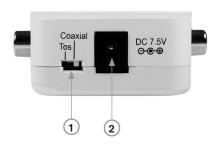

1. Toslink Output:

Connect to the input port of your S/ PDIF audio equipment such as an amplifier, using Toslink (optical fiber) cable.

2. Coaxial Output:

Connect to the output port of your S/PDIF audio equipment such as an amplifier, using Coaxial cable.

Switcher Panel

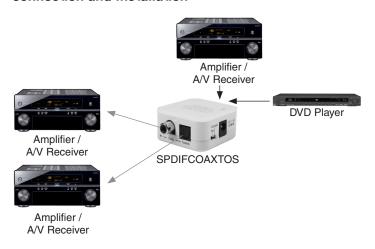

1. Input Selection

Use this switch to select which input to use - Toslink or Coaxial.

2. Power

Connect the power supply to the SPDIFCOAX-TOS unit and connect the adapter to an electrical outlet.

Connection and Installation
