

AMW50EU | Targus Wireless Optical Mouse

The Targus Blue Trace Wireless Mouse, with a stylish & contemporary design, features the latest Blue Trace technology for accurate and precise tracking.

Blue Trace technology combines the power of optical technology with the precision of laser technology for remarkable tracking on almost any surface including wood, granite, and carpet.

The ergonomic design reduces wrist strain for comfort and the mouse is ambidextrous for both left and right handed users. The Micro USB receiver can remain permanently in the USB port for instant connectivity or can be easily store inside the mouse when travelling

Wireless capability eliminates clutter from the workspace while RF 2.4GHZ technology significantly reduces cordless interference and signal drops allowing the mouse to work up to 10meters away.

Optical sensor technology - Blue Trace technology combines the power of optical technology with the precision of laser for remarkable tracking on almost any surface including wood, granite and carpet

Dual-purpose design - Large enough for comfortable desktop use, yet shall enough for the mobile user

Ergonomic - Ergonomic shape provides support to help prevent palm strain; designed for left and right handed users

Self storing adapter - Wireless receiver stores in mouse so it's never loss and always ready to use
