Epson **WorkForce AL-M400DN**

The WorkForce AL-M400DN is one of Epson's most hardworking and reliable A4 monochrome laser printers, thanks to it having one of the highest duty cycles in its class – up to 200,000 pages. This model has a compact footprint that suits medium-sized workgroups and comes with a 700-sheet paper capacity as standard - expandable up to 2,350-sheets.

Aimed at medium-sized workgroups who are looking for high productivity, this model offers reliable, high-performance printing as well as Gigabit Ethernet and fast, double-sided printing.

The Workforce AL-M400DN also offers consistently fast printing up to 45ppm[1], with a first-page-out time of 5.5 seconds, as well as high-quality results up to 1,200dpi resolution. Internal memory can also be increased to 1152Mb, to help process all business printing needs.

High-performance is teamed up with reliable printing, thanks to high-yield toners and a heavy-duty output, which provides excellent return on investment. In addition, users can print and share from anywhere in the office thanks to Epson's mobile printing app, Epson iPrint. This user-friendly application enables wireless printing from smartphones and tablet PCs[2].

The reliability of the WorkForce AL-M400DN allows businesses to concentrate on their work without the inconvenience of downtime, enhancing productivity and providing greater peace of mind.
