

MINI DISPLAYPORT (m) TO DVI (f) ADAPTER

Using the V7 Mini DisplayPort to DVI Adapter with an Apple MacBook or any other Apple product allows you to connect any DVI monitor, projector or LCD as a display. It is the perfect adapter to have on hand to provide solutions for digital entertainment centers, data control centers, conference rooms, school and corporate training rooms to mention a few environments. It supports the Mini DisplayPort connection. Simple to use, this small form factor converter makes Mini DisplayPort backwards compatible with your existing DVI display or projector. No software installation or drivers required providing a simple plug and play solution.
