Product Features

Unleash your recordable TV's features

With a My Passport AV-TV attached to your recordable TV, you can record your favorite programs and watch them when you want. Plus, use your TV's remote to pause, rewind and fast forward live TV. Your entertainment plays by your rules, on your schedule.*

Recording function is undertaken by the TV, not the My Passport AV-TV. Refer to the TV's operating manual for recording options.

Built to thrive

Created with an AV-grade drive inside, My Passport AV-TV delivers high-quality recording and crystal-clear playback of all your favorite programs making it the perfect drive for your recordable TV.

Maximum compatibility

My Passport AV-TV works with both USB 3.0 and USB 2.0 interfaces and is specifically designed for multimedia storage, making it compatible with most recordable TVs and other consumer electronic devices.

For the latest list of compatible TVs and AV devices, visit wd.com/mypassportavtv

Engineered to last

My Passport AV-TV is designed to withstand the high demands of always-on video streaming environments, giving you 24x7 reliability.

USB 3.0 for simultaneous recording and playback

Super-fast USB 3.0 enables multiple HD streams for simultaneous recording and playback on new dual-tuner TVs. Record your favorite sitcom while watching the big match and never miss a moment of the action.

USB powered

Powered only by the USB port on your recordable TV, My Passport AV-TV gives you all the TV recording storage you need without the clutter of cables.

Seamless installation

The small My Passport AV-TV fits neatly in your entertainment center. Use the included bracket mounting kit to easily attach it directly to the back of your TV for out-of-sight recording and playback.
