

USB-LAN

10/100Mbps USB Adapter

Mobile Connectivity.

Are you stuck with a legacy Notebook or other Computing device and need a fast, hassle-free Ethernet connectivity solution to connect to your existing office LAN or Broadband Service?

Introducing the new Dynamode **USB-LAN** 10/100Mbps Ethernet device that offers quick and easy Plug n' Play installation to any USB1.0/2.0 port on your existing Notebook, Desktop or Server. Offering convenience features including auto-sensing 10Mbps or 100Mbps connection, full and half-duplex flow control and very low power consumption courtesy of its advanced DM9601 ASIC processor.

Stylish, compact and completely self-powered, the cost effective USB-LAN adapter is totally compatible with standard RJ45 CAT5, CAT5E and CAT6 network installations in the home, in the office, or on the road.

Advanced features
