- 1 x quick-start guide

System requirements

- DVI-D-enabled video source device, such as a computer
- HDMI display with cabling

Product overview

\*actual product may vary from photos

About this product

This DVI-D to HDMI adapter lets you connect your DVI-D computer to an HDMI display. For added convenience, you can also add the audio from your computer to the HDMI output signal.

Important operation notes

- To power the adapter, the USB cable on the adapter must be connected to a USB power source, such as the USB port on your computer.
- If the USB cable is connected to a computer system, the computer will recognize it as a USB audio device, and use it to output your computer system's audio to the HDMI display.
- This adapter will not work with an analog video signal, such as a VGA video output port that has been connected to DVI video source using an additional adapter.

## Warranty Information

This product is backed by a two-year warranty.

StarTech.com warrants its products against defects in materials and workmanship for the periods noted, following the initial date of purchase. During this period, the products may be returned for repair, or replacement with equivalent products at our discretion. The warranty covers parts and labor costs only. StarTech.com does not warrant its products from defects or damages arising from misuse, abuse, alteration, or normal wear and tear.

## Limitation of Liability

In no event shall the liability of StarTech.com Ltd. and StarTech.com USA LLP (or their officers, directors, employees or agents) for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of business, or any pecuniary loss, arising out of or related to the use of the product exceed the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.
