

WL-700-RXS

802.11n Nano-style Wireless USB adapter

Tiny in size. Big on performance.

Are you looking for a class-leading 802.11n WiFi adapter, but need a highly compact and low-power USB device that many other vendors fail to offer?

The new Dynamode **WL-700-RXS** is an ultra-compact 'Nano' sized 802.11n WiFi compatible USB device which has all of the features of its bigger Wireless competitors such as enhanced speed and Wireless range when compared with regular 802.11g devices.

Ideal for a permanent WiFi USB attachment on your Notebook, Netbook or Mac™ portable Computer, the **WL-700-RXS** features a new, innovative, single chip design which drastically reduces power consumption, so will keep you connected for longer. Also featured is the very latest in WiFi Encryption including WPA2 (together with legacy Encryptions for your older devices), advanced QoS (Quality of Service) so the **WL-700-RXS** will automatically give priority to 'time sensitive' data such as Movies, Audio and VoIP for a more fluid experience.

Advanced features

802.11n 1T1R ~ up to 150Mbps*

Ideal for the next generation WiFi Routers

Nano-size design – ideal as a permanent connection

Ralink™ 5370 Chipset with lower power design
