

Samsung Color WiFi Laser Printer

Let the CLP-325W set your printing free. Its convenient One Touch Wi-Fi Setting makes connecting to your Wi-Fi a breeze. No manual configurations or complicated passcodes. This liberating convenience is matched by impressive, high quality color printing with up to 2,400 x 600 dpi. The CLP-325W effortlessly delivers maximum color while stylishly sporting a minimal design, with its chic black and crème grey façade. All this style and power, yet the compact CLP-325W fits easily almost anywhere.

Capture what catches your eye

Samsung's AnyWeb Print software lets you go hunting and gathering on the Web. You can utilize the CLP-325W to easily select, drag, and drop content from different web pages onto a printable scrap board in your browser window, all while you surf the web. It's an easy way to collect, arrange, and edit useful reference points and resources you can only find on the web for big projects – or even just for fun.

Your printing experience just got a lot more colorful.

The CLP-325W easily delivers color accuracy through premium quality 2,400 x 600 dpi resolution with absolute ease. Also, with toner particles that are smaller and more uniform in shape than traditional toner particles, you'll be impressed with accurate colors and beautiful, glossy printouts.

One less noisy office distraction

You shouldn't have to struggle to hear yourself think while sitting at your own desk. That's why the Samsung CLP-325W is engineered to be whisper quiet, generating a noise level of just 45 dBA (Color) and 47 dBA (Mono) while it's printing. That's less than the gentle hum of a running refrigerator! A desktop printer that does its work while letting you focus on yours? Cool.

Lessen your wait, not your expectations

Quit losing productivity waiting around for your documents to print – the Samsung CLP-325W's fast print speed (16 ppm for mono, 4 ppm for color) will have you back to work in no time. In Ready Mode, the CLP-325W features a First Page Output Time (FPOT) of only 14 seconds for black and 26 seconds for color, satisfying your need for speed. An impressive 2400x600 dpi print resolution satisfies your demand for quality.

A soft approach to energy efficiency

In today's green office environment, there's simply no room for energy-hogging printers. That's why the Samsung CLP-325W features an easy-to-reach power button right on the control panel, so you can switch to an energy-saving standby mode at the push of a button. Want to print? Just press the button again to power back up, and you're ready to go.
